Chris Anderson  
INSPECTOR'S NAME

of the Oregon Department of Agriculture met with you to review your compliance with the Oregon CAFO General Permit or the Oregon CAFO Individual Permit issued for your operation by the Department of Agriculture, and state laws and regulations relating to protection of the state's waters. The principal requirement of the permit is that animal wastes be managed so pollutants do not discharge into surface waters or impact groundwater. You are also required to contain, treat, hold and dispose of wastes in a manner that does not adversely impact water quality.

Based on the inspector's observations and report, the department concludes that conditions exist at your operation that are in violation of your CAFO permit and state water quality laws. The purpose of this **Notice of Noncompliance (NON)** or **Notice of Noncompliance & Plan of Correction (POC)** is to identify for you the conditions of your operation that are out of compliance and must be corrected. The department is committed to working with you as you take the necessary actions to bring your CAFO into compliance.

## Description of Violation(s):

S2 Discharge. Southwest Corner of Concrete

## Required Corrective Action(s) and Compliance Schedule:

To correct the violation(s) you are directed to take the following actions by the date(s) indicated.

R1 Clean up and Export or apply Escaped Manure By June 15  
R2 Develop Berms, curbs, etc To keep contaminated Runoff contained 2018  
By September 1, 2018

Thank you for your cooperation in these matters. If you have any questions, please contact me.

Under the Oregon Plan for Salmon and Watersheds, Oregonians across the state are working together in a spirit of cooperation to restore and maintain our rivers, lakes and streams for multiple uses. By completing the measures described above, you can do your part to protect and improve water quality.

Sincerely,

Inspector's Signature
